DETAILED ACTION

Status of Claims

Claims 1-20 are pending.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Response to Restriction

Applicant's election with traverse of Group I, claims 1-2, 7-13 and newly added claim 20 in the reply filed on 01/03/06 is acknowledged. The traversal is on the ground(s) that the principal moiety in the claimed diepoxides is the diepoxidized form of diallyl phenols, which only differ, in a single ether or ester substituent on the diallyl phenol moiety. This is found persuasive and therefore, the restriction of record has been withdrawn and all arguments are now moot in view of the withdrawal of the restriction.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
